Professional Summary

Driven 5th-semester Informatics Engineering student (GPA 3.33) at Universitas Multimedia Nusantara with a strong passion for Front-End Development across mobile and web platforms. Experienced in building user-focused applications using Android Studio (Kotlin, XML) and modern web technologies such as HTML, CSS, JavaScript, and React.js. Detail-oriented, adaptable, and fast to learn, with a strong interest in creating intuitive and responsive interfaces. Actively seeking a Front-End Developer / Android Developer internship to contribute technical skills and grow professionally.

Education

- | | |
|--|----------------|
| • Universitas Multimedia Nusantara Bachelor of Informatics | 2023 - Present |
| • SMA Santo Tarcisius Science Major | 2019 - 2022 |

Technical Skill

- **Mobile Development** : Android Studio, Kotlin, XML, Android SDK.
- **Web Development** : HTML, CSS, JavaScript, React.js, Node.js, PHP.
- **Programming Languages**: Python, Java, C++, C#, C, SQL.
- **Databases**: MySQL, OpenGauss.
- **Tools & Platforms**: GitHub, Figma, Android Studio, Visual Studio Code, Unity.
- **Soft Skills**: Problem Solving, Teamwork, Adaptability, English (Intermediate).
- **Languages** : Indonesia (Native), English (Intermediate)

Certifications

- **HCIA-AI V3.5** – Huawei Certified ICT Associate
- **HCIA-OpenGauss V1.0** – Huawei Certified ICT Associate
- **Python Course** – SoloLearn

Project Experience

Englab App | Frontend

Mobile Application - 2025

- Developed the front-end UI using Kotlin and XML, ensuring responsive and user-friendly interface design.
- Implemented a bottom navigation bar (navbar), app logo placement, and main layout structure for seamless navigation.

Fake Review Detection | Machine Learning

Machine Learning - 2025

- Built a machine learning-based system to classify fake and genuine online reviews using Python and NLP techniques (TF-IDF).
- Trained and evaluated classification models to support data-driven decision making.

BantenPro | Frontend

Intro to Technology - 2024

- Developed a web-based platform promoting Banten tourism using React.js (Frontend) and Node.js (Backend).
- Implemented responsive UI components and managed dynamic content rendering for an optimal user experience.

Personal Portfolio Website

- Developed a personal portfolio website to showcase projects, skills, and experiences using Next.js, typescript, and tailwind CSS.
- Implemented a responsive and modern UI, optimized component structure, and deployed the application using Vercel to ensure accessibility and performance across devices.

Organisation

Character Building Mentoring | Mentor

2025 (January - December)

- Mentored 20 students to instill core values (5C) and facilitated their adaptation to campus life.

TV ON AIR 10.0 | Logistics Staff

2025 (January - March)

- Managed the procurement and preparation of equipment and facilities required for the event's success.
